

TurtleTub™

# Fragrance-Free Baby Wash

The cleanser you choose for your neonatal population matters.  
TurtleTub has carefully considered ingredients to support infant skin.

## Fragrance-Free

Fragrances can be irritants on pre-term and full-term infant skin. Neuro-nurturing smells like skin-to-skin holding, scent cloths, and mother's milk are favored over chemical smells.

## Gentle

No fragrance, dyes, sulfates, parabens, or phthalates

## pH Neutral

A pH neutral environment supports the protective properties of the skin.

## Smooth Texture

Smooth texture to easily massage your infant during the bath

## Mild Preservative

For lasting shelf-life protection against microorganisms

## Single Use Packaging

To avoid open-container contamination at the bedside
